

Legislation regarding “nontraditional” coursework (defined as online, correspondence, independent study, software-based credit recovery etc.) states the following criteria must be met in order for a course to be used for NCAA initial eligibility purposes:

- The instructor and the student have ongoing access to one another for purposes of teaching, evaluating and providing assistance to the student throughout the duration of the course;
- The instructor and the student have regular interaction with one another for purposes of teaching, evaluating and providing assistance to the student throughout the duration of the course;
- The student's work (e.g., exams, papers, assignments) is available for evaluation and validation;
- Evaluation of the student's work is conducted by the appropriate academic authorities in accordance with the high school's established academic policies;
- The course includes a defined time period for completion; and
- The course is acceptable for any student and is placed on the high school transcript.

Based on the information provided, our staff has determined that coursework from SoloQuest School & Learning Center meets NCAA nontraditional core-course legislation.

SoloQuest’s NCAA Courses

HS Information	
High School Code	053411
High School Name	SOLOQUEST LEARNING CENTER
Address	414 W NAPA ST SONOMA CA - 95476
Phone	707-939-1133
Fax	707-939-9595
Primary Contact	DEBORAH STEWART
Last Update of List of NCAA Courses	06-May-08

Additional Information
Coursework from this program meets NCAA nontraditional core-course legislation.

Courses designated with a '=' symbol are courses that may be used only by students with a diagnosed disability. A course for a student with disabilities must be **exclusively** open to students with documented learning disabilities. The course must be quantitatively and qualitatively the same as the regular equivalent and there must be a standardized curriculum/syllabus.

NCAA legislation permits a student to receive credit for a core course only one time. As a result, if a student repeats a core course, the student will only receive credit once for the core course, and the highest grade earned in the course will be included in the calculation of the student's core course grade point average. Likewise, if a student completes a course that is duplicative in content with another core course, the student will only receive credit for one of the duplicative courses, and the course with the highest grade earned will be included in the calculation of the student's core course grade point average.
